JOINT PHOTOGRAPHIC INTELLIGENCE BRIEF

ARMY-NAVY-CIA

INSTALLATION: Possible Guided Missile Launch Site BRIEF NO.: JB-13-58
LOCATION : Kolberg-Deep, Poland DATE : 14 May 1958
B. E. NUMBER: Nonã LAT. : 54° 08' N
WAC NUMBER: 0169 LONG.: 15° 15' E
25X1D

MAP DATA:

AMS M508 Central Europe, 1:250,000, Sheet 055

REFERENCE:

Air AFOIN-1A1, 24 March 55

REQUIREMENT: Prepared as part of a comprehensive analysis of Soviet guided missile sites and activities, under HTA Joint Project 5-58

REMARKS:

A possible guided missile launch site is located at Kolberg-Deep, Poland, 14 miles southwest of Kolberg, on the Baltic coast. This site consists of one circular concrete launching pad, 65 feet in diameter, located on high ground at the terminus of a new hard-surfaced road with a by-pass and wide-radius turns. This possible launch site is located in what appears to be a training area for conventional AA weapons.
